THE OTHER SIDE. -At the annual meeting of the Bank of Bombay, the Chairman referred at length to the silver question. He said that the rupes value of produce had declined in almost exact proportion to the advance in exchange, and the whole produce of the country had, been suddenly changed in value by fifteen or twenty per garding the matter. What the effect would be, no one could say, but many fortunes would be affected in the process. The great and steady increase in the trade of India in recent years had been concurrent with a falling exchange, and it was, in his opinion, impossible without some anxiety and sense of the necessity of great caution, to look at a change which had altered the condition of the working of this great trade. We observe from the Comercio that in the Philippines the change is disas rous to the value of produce, which will undoubtedly be lowered. Some of the effects have already been felt there, as while exchange was rising, the value of the produce of the country was going down, though not to a large extent,

ARGUNTINE FINANCES. New York, July 28 .- A special cable from London to the Mail and Express mys: Interest is felt here in the political situation in the Argentine. The bulk of the debt of the Argentine Government, which amounts to £17,000,000, is held in England, besides a great deal more in railroads, which has been taken up by syndicates, timmeial houses and private persons this year. Lord Revelstoke is on his way to arrange the business of the Barings with the Argentine Government, and the financial interests of this country are involved to an extraordinary extent in the affairs of that country. The inancial collaise of the Celmin Government would mean the roin of thousands of reople here.

ITHIS Review, which was intended to meet the wants of many students of Chinese caused by the discontinuance of 'Notes and Querics on China and Japan, has reached its Eighteenth Volume. The Review discusses those topics which are uppermost in the minds of students of the 'Far East' and about which every intelligent person connected with China or Japan is desirous of acquiring trustworthy information. It includes many interesting Notes and original Papers on the Arts, Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Natural History, Antiquities, and Social Manners and Customs, etc., of China, Japan, Mongolia, Tibet, and the Far East generally. Recently a new degives papers on Trade; Commerce, and Descriptive notes of Travel by well-known writers. It was thought that by extending the scope of the Review in this direction, the Magazine would be mademore generally

usoful, The Review department receives special attention, and endeavours are made to present a careful and concise record Literature on China etc., and to give critiques embodying sketches of the Most recent works on such topics. Authors and Publishers are requested to forward works to Editor, China Review, care of China Mail Office.

The Notes and Queries are still continued and form an important means of obtaining from and diffusing among students knowledge on obscure points

The Correspondents' column also affords farther and greater facilities for the inter. Customs, to be obtained on application. change of views and discussion of various conics.

Original contributions in Chinese, Latin, or any of the Modern Languages are recoived. The papers are contributed by the members of the various Consular, the Imperial Customs, and Hongkong Services, and also by the Missionary bodies amongst whom a high degree of Chinese scholarship is assiduously cultivated. Amongst the regular contributors are Drs. Cimlmers, Eitel, Bretschneider, and Hirth, Professor Legge, and Mesars Balfour, Watters, Stent, Phillips, MacIntyre, Groot, Jamieson, Faber, Kopsch, Parker, Playfair, Giles, Piton, and Taylor,-all well-known names, indicative of sound scholarship and thorough mastery of their subject.

The Subscription is fixed at \$6.50 per annum, pestage included - payable in advanco. Orders for binding volumes will be promptly attended to; Address, 'Manager, China Mail Office.'

OPINIONS OF THE PRESS. "All our learned societies should subscribe to this scholarly and enterprising Review.'-Northern Christian Advocate (U.S.) 'The China Review * * * * has an excellent table of contents.' - Celestial Empire. 'The Publication always contains subjects of interest to sejourners in the Far East and the present issue will hold favourable if not

advantageous comparison, with preceding

numbers.'-Celestial Empire. 'This number contains several articles of interest and value.' - North-China Herald. 'The China Review for September-October fully maintains the high standard of excellence which characterises that publiration, and altogether forms a very interesting and readable number. Meteorologists will find an interesting and valuable contribution by Dr. Fritsche, on "the Amount of Precipitation (Rain and Snow) of Peking," showing the results of observations made at the Imperial Russian Observatory at Peking, from 1841 to 1880. "Notes on the Dutch Occupation

of Formosa," by Mr. Geo. Phillips, contains some interesting information, although much of it is second-hand. The Notices of New Books include a most generous and approclative review of "The Divine Classic of Nan-Hua," and the Notes and Queries are as usual very interesting.' -- North-China Daily News. A substantial and reliable Review which all students of China and the Chinese would do well to patronise.' - Ohrysanthemum.

'The November-December number of the China Review contains less variety than usual, but the few articles are yery interesting. The opening paper by Mr Herbert A. Giles on "The New Testament in Chinese" treats of a question that must necessarily be of great importance in the eyes of all missionaries. . . Mr E. H. Parker's "Short Journeys in Szechuen" are continued, and a goodly instalment of these travels in the interior of China is given. Mr F. H. Balfour contributes a paper of some length entitled "The Emperor Cheng, founder of the Chinese Empire," which will be read with genuine interest by students of Chinese history. A few short notices of New Books and a number of Notes and Queries, one of which On Chinese Oaths in Western Forneo and Java" might appropriately have been placed under a separate heading, complete the number. —H.K. Daily Press.

Trubner's Oriental Record contains the following notice of the China Review !-The present publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, some what similar to that which has been filled in India by the Calcutta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature. antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of inform. ation, randering some such channel of publicity as is now provided extremely desirable; and contributions of much interest may fairly be looked or from the members of the foreign consular services, the Chinese Customs' corps, and the missionary body, among whom a high degree of Chinese scholarship is now assiduously cultivated, and who are severally represented in the first number of the Review by papers highly creditable to their respective authors Shameen Hotel & Land Co., Ld. ... 5,000 8 Some translations from Chinese novels and plays are marked by both accuracy and fresh-A. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a uneful feature of the Review, if carried out with punctuality Green Island Coment Co., Ld. 20.000 \$ detail, we are glad to notice that 'Notes' and 'Queries' are destined to find a place in its pages also.
